An Appeal to the Public.—THE LIFE SAVING BEREVOLENT ASSOCIATION OF NEW-YORK was formed
and chartered in 1849, its object being to procure Life-Boats and
Station-Houses, with materials for saving life in cases of shipwreck to encourage meritorious conduct by granting therefor
medals and pecuniary rewards.

Through the liberality of Congress numerous Life-Boat Stations have been established on the shores of Long Island and
New-Jersey, by which more than 1,700 persons have been resseed from impending death. Without those means of escape,
the dreadful tragedy of the Mexico and Bristol would have been
repeated. The immense and constantly increasing commerce
of this port demands of the citizens of this emporium the most
comprehensive pian and effective means for saving the lives of the
shipwrecked. And what nobler aim, what more humans achievement than that of recoung the poor enigrant and the temperment than that of recoung the poor enigrant and the temperships-recked. And what nobler aim, what more humane somewement than that of recuing the poor emigrant and the tempest-based mariner from the jaws of death! The services of all those camected with the Association are wholly graunious, but their finds are entirely inadequate to carry out their views. They appeal therefore with confidence to their fellow-citizens, to aid with liberal contributions their efforts in the cause of humanity. Donations will be received by E. K. COLLINS. esq.

THE ILLINOIS CENTRAL RAILROAD COMPANY
IS AGO PREPARED TO SELL OVER TWO MILLIONS OF ACRES
OF SELECTED
PRAIRIE, FARM AND WOOD LANDS
IN TRACTS OF 40 ACRES AND UPWARD,
to sail purchasers, on long credits and at low rates of interest.
They were granted by the Government to encourage the
building of this Railroad, which runs from the extreme north to
the extreme south of the State of Illinois. It passes from the
dotted here and there with magnificent Oak Groves. The recent oponing of nearly 600 miles of this road throws open the
lands for cultivation. They are scattered from one to fifee
nulles on each side of it, through its entire length.
The soil is a dark, rich mold, from one to fire and here with magnificent Oak Groves. The recent oponing of nearly 600 miles of this road throws open the
lands for cultivation. They are scattered from one to fifee
nulles on each side of it, through its entire length.
The soil is a dark, rich mold, from one to fire feet in depth,
is gently roilling, and peculiarly fitted for graning cattle and
sheep, and the cultivation of wheat, Indian corn, &c.
The first crop of Indian corn planted on the newly broken
prairie, usually pays the cost of plowing and sometimes fencing.
Wheat sown on new turned sod is sure to yield very large profits.
One man with a plow and two yoke of ozen, will break one and
shall to two acres per day. Coutracts can be made for breaking,
ready for corn or wheat, at \$2 to \$2.50 per acre. By judicious
management farms may be broken and fenced the farst, and
under a high state of cultivation the second year.

Chaser.

INTEREST WILL BE CHARGED AT ONLY TWO PER CENT PER ANNUM.

As a security for the performance of the contract, the first two years interest must be paid in advance, but it must be understood that one-teach of the land purchased shall yearly be brought under cultivation. Longer credits at eix per cent per amnum may be negotiated by special application. Twenty per cent from the credit price will be deducted for cash, in which case the Company's Construction Bonds will be received accash. It is believed that the price, long credit, and low rates of interest charged for these lands, will enable a man with a few hundred dollars in cash and ordinary industry, to make himself independent before all the purchase money becomes due. Meantime the rapid settlement of the country will probably have increased their value four or five fold. When required, an experienced person will accompany applicants to give information and aid in selecting lands.

Large Plats, showing the precise location of the lands throughout the State, may be seen at the office. Small pocket Plats, as a guide to any part of the Company's lards, and ramphical, containing interesting information, accompanied by numerous letters from respectable farmers throughout the State, may be had on application at the office of the Company's lards, and Pamphlets, and any part of the Company's lards, and Pamphlets, and application at the office of the Company, No. 32 Michiganav., Chicago.
